

Technology Consulting

Technology Consulting makes the business vision actionable. This is accomplished by ensuring the right strategies are in place and a solid execution plan is developed to achieve success.

AGSI Technology Consulting partners with clients to deliver technology solutions to business problems. We work with our clients at every stage of the project life cycle, from planning to deployment. Whether the client is seeking to expand its capabilities, implement a new technology or maintain aging legacy systems, AGSI can help.

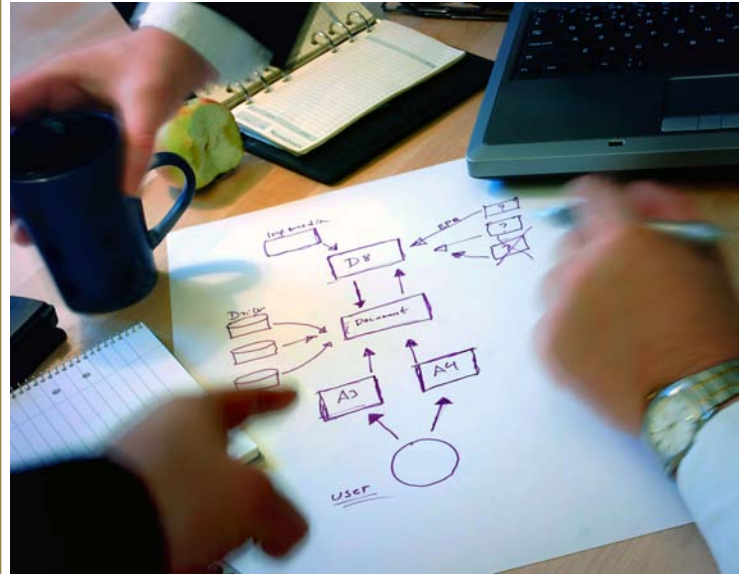

The key to success is understanding the problem in order to deliver the right solution.

Our clients know their business best. AGSI builds strong relationships with our clients based on our ability to listen and truly understand their problems. We are then able to deliver the right blend of people, processes and tools to accomplish their goals. By ensuring that the end result supports the business vision and strategy, AGSI Technology Consulting delivers value at all levels of the AGSI Business Pyramid.

The AGSI Business Pyramid

AGSI Technology Consulting is your partner across the IT project life cycle. Our values ensure that we act with integrity and in the best interest of the client. AGSI is committed to consistently delivering quality solutions that meet business needs and exceed expectations.

Our Technology Consulting services include:

Application Development & Support:

From project management oversight and planning to constructing and implementing technology solutions, AGSI's experienced consultants provide the right balance of expertise to develop and support your IT applications.

Systems Integration:

Organizations can reduce costs by developing cost-effective application interfaces. AGSI helps clients streamline systems and eliminate redundancies by consolidating operating units into single application platforms.

Project Management:

When an organization executes business initiatives with Best Practices, it can achieve timely delivery of projects and products while meeting defined objectives and mitigating risk. AGSI's expertise leverages industry Best Practices to deliver optimal results and keep projects on track.
